I don't want to get wet... I'm calling in too. No offense, Regeaners.

It is in one of the weird rooms. If you are running late it may be easier for you to call in. Your choice.

I'll add this to the agenda.

Thanks.

I have to meet with our front office again today on Water-Gen at 10:30, so I'll probably be a half hour late to the meeting (in the Policeum, right, or is it in one of those weird alcoves by the elevator?). Water-Gen is the Israeli company that wants to test its atmospheric water generators, but apparently there is no EPA cooperator for an MCRADA yet. I'll let them know that, and maybe we can talk about it at today's meeting. Apparently, the administrator's office is hot on this.

Scott's got a brief to take care of this morning, so he probably won't be able to attend. He and I talked about the electronic signature issues yesterday.

Hi All,

I'm at home today and will be off after our meeting for the weekend. Those of you in DC are welcome to meet in the meeting room in the RRB.

I have attached a patent and email from Eric that came up after our discussion yesterday Laura – so we have 2 potential issues with this company and our IP.

Hey Laura

I was just going through a bunch of old emails on CANARY. Attached is another patent that was just pending in the fall of 2013 (and issued last February) and which appears to be more problematic.

Eric

I have 51109 through August of 2018. Over kill I know.

I had to do it in segments as it was booked for a few dates.

We DON'T have it on
